

# DAFFODIL DAYS

## LET'S BEAUTIFY THE TOWN

One way is to plant daffodil bulbs now for a splash of color in early Spring next year. Everyone loves to see flowers in bloom. Here is an opportunity for all of you gardeners and flower lovers to show off your skills and help beautify the town this coming Spring.

To motivate residents to dress up their flower gardens, the Economic Development Committee (EDC) is planning a Daffodil Days event for next Spring when daffodils and other Spring flowers start to blossom.

### **Register Now**

You should register your home now. Contact the [EDC](#). In the Spring, the EDC will announce the registered homes that residents can visit. You can plant bulbs anytime before the ground freezes, so get out to your local garden shop, get some daffodil bulbs, and plant them!

### **Next Spring**

Once Spring arrives next year, the EDC will make an announcement. That will be your cue to drive around town, visit all the flower gardens, and then vote for Best Flower Garden. We are still fine tuning this activity so we'll have more details depending on how many residents sign up.
